GET CONNECTED

The K780 Multi-Device keyboard allows you to connect up to three devices either via Bluetooth Smart or via the pre-paired Unifying USB receiver*.

Quick Setup

Follow the steps below to quickly connect to your computer, laptop or tablet. For more information on how to connect with Unifying or Bluetooth Smart, go to the sections below.

* The Unifying receiver is stored in the keyboard under the battery door.

Dual Connectivity

The K780 lets you connect up to three devices (computers, laptops, tablets or smartphones) either via the Unifying receiver (2.4 Ghz) or Bluetooth Smart.

Connect with ✷ unifying

The K780 Multi-Device comes with a pre-paired receiver that provides a plug-and-play connection to your computer or laptop.

You'll need the following to use the Unifying receiver:

Requirements
A USB port
Unifying Software
Windows 7, Windows 8, Windows 10 or later
Mac OS X 10.10 or later
Chrome OS

If you want to pair a second time to the receiver in the box or pair to an existing Unifying receiver, follow these steps.

How to connect

1 Download Unifying software. You can download the software <u>here</u>.

2 Make sure your keyboard is turned on.

3 Press and hold one of the white Easy-Switch keys for three seconds. (The LED on the selected channel will rapidly blink.)

4 Configure your keyboard according to your operating system:

For Mac OS: Press & hold fn + O for three seconds.
(The LED on selected channel will light up.)

For Windows, Chrome or Android: Press & hold fn + P.
for three seconds. (The LED on selected channel will light up.)

5 Plug in the Unifying receiver.

6 Open the Unifying software and follow the instructions on the screen.

Connect with **Bluetooth®** *SMART*

The K780 Multi-Device Keyboard allows you to connect via Bluetooth Smart.
Please ensure your device is Bluetooth Smart ready and runs one of the following
operating systems:

Requirements
Windows 8 or later
Mac OS X 10.10 or later
iOS 5 or later
Android 5.0 or later
Chrome OS

How to connect

1 Make sure your K780 Multi-Device is turned on and Bluetooth is enabled on your computer, tablet or phone.

2 Press and hold one of the Easy-Switch keys for three seconds. (The LED on the selected channel will blink rapidly.)

3 Open Bluetooth settings on your device and pair with "Keyboard K780".

4 Type the on-screen password and press enter or return.

ENHANCED FUNCTIONS

The K780 Multi-Device has a number of enhanced functions to get even more out of your new keyboard. The following enhanced functions and shortcuts are available.

Mac OS	Language switch	Print screen	Lock screen	Selects text to the left from the current cursor position	Selects text to the right from the current cursor position	Brightness up	Brightness down

* Requires installation of Logitech Options software

DUAL LAYOUT

Unique dual-printed keys make the K780 keyboard compatible across different operating system (e.g. Mac OS, iOS, Windows, Chrome, Android). Key label colors and split lines identify functions or symbols reserved for different operating systems.

Key Label Color

Gray labels indicate functions available on Apple devices running Mac OS or iOS.

White labels on gray circles identify symbols reserved for use with Alt Gr on Windows computers.

Reserved key labels

Gray
Reserved for use with Apple computers (Mac OS) or iPhones and iPads (iOS)

Example (Mac OS or iOS)

Z + alt gr / cmd ⌘ = «

White on gray circle
Symbol reserved for use with Alt Gr on computers running Windows

Example (Windows)

M + alt gr / cmd ⌘ = μ

Split keys

Modifier keys on either side of the space bar display two sets of labels separated by split lines. The label above the split line shows the modifier sent to a Windows or Android device.

The label below the split line shows the modifier sent to an Apple computer, iPhone, or iPad. The keyboard automatically uses modifiers associated with the currently selected device.

Split key labels

alt / cmd ⌘

Above: Windows and Android
Below: Mac OS and iOS
Split line

start / alt opt   alt / cmd ⌘   alt gr / cmd ⌘   ctrl / alt opt

How to configure your keyboard

To configure the layout according to your operating system, press one of the following shortcuts for three seconds.

iOS fn + I

Mac OS fn + O

Windows fn + P

The LED on selected channel will light up to confirm when the layout has been configured.

NOTE: If you connect in Bluetooth Smart, this step is not necessary. OS Detection will automatically configure the layout.

To select an OS	Hold down key combination for 3 seconds
iOS	fn + I
macOS	fn + O
Windows	fn + P
