INTRODUCTION

Curated Solutions for All People, All Spaces

Today's employees need the right tools and equipment to work at their best wherever they are, so they are always prepared for individual and collaborative work.

But this is key: Employees don't all need the same equipment. The CEO, who meets with customers and investors and is often on the road, needs a different set of equipment than a typical employee who works mostly at a desk in the office and perhaps a couple days a week at home.

In this ebook, you'll find guidance on designing personalized desktop setups for various employees within your organization, from core office staff to executives and even mobile and remote workers. Let's dive in and get started.

The New Personal Workspace

Logitech creates human-centered technology solutions that help people create and collaborate effectively from anywhere.

Our complete personal workspace portfolio will help your team do their best work while enjoying a more flexible and satisfying work experience.

Core Solution

A New Standard for Productivity

A majority of the workforce within many businesses and organizations are people who work in offices — from finance and marketing professionals to salespeople and HR. These employees need high-quality tools that enhance productivity and facilitate collaboration. Our Core Portfolio includes products that benefit employees and are priced for mass deployment.

Give employees desktop tools they love without breaking the bank. A slim, laptop-style keyboard and mouse combo. A headset with quality audio for clear calls. A 1080p webcam for engaging video meetings. A docking station and speakerphone with great audio, and meeting control buttons that makes it easy to join meetings.

Products in the Core Solution

Recommended Products

Signature Slim Combo MK950 and MK955 for Business

Wireless keyboard/mouse combo with laptop-style typing, super fast scrolling, and multi-device switching.

Brio 505

Full HD 1080p webcam with light correction, auto-framing, and Show Mode¹. Adjusts to any lighting so users always look natural.

Zone 305

Lightweight wireless headset featuring great audio and reliable connections for clear and uninterrupted calls. Ideal for mass deployment.

Logi Dock Flex (for office)

Managed docking station that enables easy and personalized desk booking for employees and simple device management for IT.

Logi Dock (for home)

All-in-one USB-C docking station and speakerphone that charges up to five USB peripherals and two monitors and makes desktop clutter disappear.

Advanced Solution

Pro Tools for Pro Work

Specialized professionals such as developers, creators, and analysts need productivity tools that give them a high degree of control and precision, with innovations that enable them to streamline workflow, sharpen work focus and achieve high-performance from anywhere. Senior managers and C-suite executives in particular need tools that allow them to put their best foot forward and present with authority. The Advanced Portfolio includes top-of-the-line products that meet the requirements for these employees and leaders.

Equip specialized professionals with a 4K Ultra HD webcam, a premium headset with active noise cancellation, and customizable mice and keyboards with precise scrolling and typing, and other advanced devices.

Recommended Products

MX Keys Combo for Business | Gen 2

Our best keyboard and mouse, designed for precision, speed and comfort. Keyboard features a single metal plate for stability and quieter typing. Mouse contours to the shape of the hand for all-day comfort.

MX Brio 705 for Business

Premium 4K webcam with all the features of Brio 505 plus AI-powered image enhancement, outstanding performance, and stunning design. Perfect for skilled professionals and executives.

Zone True Wireless

Bluetooth earbuds with best-in-class noise-canceling mic, active noise cancellation, and simultaneous connection to your computer and phone.

Logi Dock

All-in-one USB-C docking station and speakerphone that charges up to five USB peripherals and two monitors and makes desktop clutter disappear.

Zone Wireless 2

AI-powered headset for two-way noise-free calls. Features AI noise suppression, 4 noise-canceling mics, and hybrid active noise cancellation to help high-skilled employees work without distraction.

Spotlight Presenter

An advanced digital pointer that helps an audience follow what's said, whether they're in person, virtual, or a hybrid of both.

Ergonomic Solution

Choose *Employee Wellbeing*

Regardless of function or seniority level, many employees are conscious of wellbeing and seek ergonomic workspace solutions that reduce strain and also have an approachable design. The Ergo Portfolio addresses healthy workplace goals and allows you to standardize on Logitech devices across your organization.

Provide employees with science-based ergonomic devices that promote workplace wellbeing, such as an easy-to-use wave keyboard that offers natural typing posture and a vertical mouse that's available for both right- and left-handed employees. For a more comfortable meeting experience, offer employees wireless lightweight headphones and a webcam placed at eye-level.

Recommended Products

Wave Keys for Business

Ergonomic keyboard with wave design and cushioned palm rest for all-day comfort. Puts wrists and forearms in a more natural and relaxed position to make typing fluid and easy.

Brio 505

Full HD 1080p webcam with light correction, auto-framing, and Show Mode¹. Adjusts to any lighting so users always look natural.

Ergo K860 for Business

Promotes a more relaxed, natural typing experience designed for hours of comfortable use.

Lift for Business

Vertical ergonomic mouse designed to improve posture and reduce forearm muscle fatigue. Places hands at an optimal 57° angle.

Zone Vibe Wireless

Over-the-ear headphones with Bluetooth and USB receiver. Certified for business and perfect for hybrid work.

Ergo M575 Trackball Mouse for Business

Engineered to reduce hand movement, keep the hand and arm relaxed, and provide hours of comfort.

Brio 305

Full HD webcam with auto light correction, noise-reducing mic, and USB-C connectivity.

Mobile Solution

Free to Roam

Our mobile solutions take work beyond the fixed desk and empower employees to do their best wherever they travel. Slim, light, and portable, Logitech mobile solutions are made to slip into bags and briefcases, go wherever employees go, and power up at a moment's notice. Employees are set free to work, learn, and create from a park, a cafe, a hotel, or a client's office.

These versatile tools are made for typing, clicking, and sketching across various screens and devices in one seamless flow. Whether your employees are on a tablet, laptop, or phone, we've got a solution to help them achieve more from anywhere.

Combo Touch
for iPad Pro

Logitech Crayon

Products in the Mobile Solution

Recommended Products

Combo Touch for iPad Pro

Ultra-versatile detachable keyboard case with trackpad for Apple iPad Pro®. Transforms iPad into a multi-functional productivity machine and does so with style and ease.

Logitech Crayon (USB-C or Lightning)

Pixel-precise digital pencil for all iPad models (2018 and later). Boosts productivity and unleashes creativity. Can be used to mark up PDFs, take handwritten notes, sketch diagrams, and so much more.

Alternatives

MX Anywhere 3S for Business

Compact and portable for the ultimate versatility and performance. Make sure employees are productive wherever work takes them.

Choose Products Designed for Sustainability

At Logitech, sustainability is at the core of every design decision we make — from the moment raw materials are sourced to end-of-life considerations. It's this attention to detail that can make a significant step toward a positive future.

Creating a better future for our planet and society requires new, different ways to solve big challenges. Discover how we're pioneering new ways to design for a sustainable, equitable, and imaginative world — and how everyone can play a part.

[OUR SUSTAINABILITY INITIATIVES](#)

CONCLUSION

Curated Solutions for Fast, Easy Deployment

It's clear that having different solution sets tailored to different groups of employees can make them more efficient, productive, and comfortable. Most knowledge workers need the basic tools to get the job done. Specialized professionals such as developers and creators may need more sophisticated tools. Remote employees and people who travel have different requirements.

For these reasons, we offer a wide range of desktop products. We design them for employees, but we also know they must be easy for IT to deploy and manage. Our goal at Logitech is to provide your organization with flexible solutions that don't increase the burden on IT. We do that by giving you that ability to manage all Logitech devices together, remotely, using Logitech Sync. So they're not just great for employees — they're also great for IT.
