Promote Inclusive Classroom Environments

Celebrate student differences with edtech that suit developmental needs and personal preferences

Every student's journey is unique. Flexible and comfortable technology caters learning to students' motor skills, developmental needs and preferences for knowledge expression. Unlock every learner's potential with tools that meet them where they are.

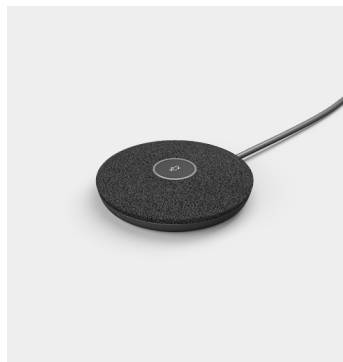

HELP STUDENTS SEE AND BE SEEN

Immersive video collaboration technology makes learning more accessible by enhancing focus and interaction wherever learning happens.

RALLY VIDEO CONFERENCING SOLUTIONS

Collaborative classrooms at your fingertips with our class of Rally video conferencing solutions. With advanced camera systems, AI enhancement, and room-filling sound, Rally Bar solutions centers everyone in the learning experience.

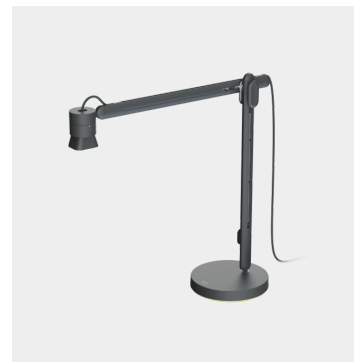

RALLY BAR MIC PODS

Modular microphones for Rally, Rally Bar, and Rally Bar Mini. With RightSound™ technology, Rally Bar Mic Pods auto-level voices and suppress noise to allow remote students to hear the instructor from anywhere in the classroom.

SCRIBE WHITEBOARD CAMERA

An AI-powered whiteboard camera that empowers learners to participate by broadcasting unobstructed whiteboard content in hybrid or in-person learning environments.

LOGITECH REACH

Give every student a front-row seat with an adjustable content camera that lets instructors move the camera to non-digital content in full 360° rotation.

ALLOW STUDENTS TO HEAR AND BE HEARD

Research shows that trouble hearing leads to distraction and lower engagement. Headsets and audio devices can enhance student focus on educational content and enhance self-paced learning.

H111 STEREO HEADSET

A standard 0.13 in (3.5 mm) audio, multi-device headset that supports multiple learning needs and apps. With a flexible 180° rotation microphone, H111 is positioned for better voice capture and noise reduction.

ZONE LEARN WIRED HEADSET

A headset designed with and for kids tuned for deep sustained learning. With swappable on-ear or over-ear pads and an adjustable slider arm, Zone Learn offers a comfortable listening experience for learners of all ages.

BLUE YETI MICROPHONE

A premium USB Microphone with Blue VO!CE filters and effects that enable students to capture crisp audio. With 4 pickup patterns and studio controls, students can dial the perfect tune for clean and focused sound.

ENABLE SELF EXPRESSION AND INTERACTION

Bring creativity and self expression to life with easy-to-use companion tools that are especially helpful as students' bodies, motor and digital skills develop.

LOGITECH PEN

A rechargeable, USB-enabled Chromebook stylus with auto-pair and quick charge technology. Designed for students with students and educators, Logitech Pen's palm rejection technology and 4,096 levels of pressure sensitivity makes it easy to work naturally.

LOGITECH CRAYON FOR EDUCATION

A versatile, quick-charging digital pencil for iPad. Logitech Crayon uses Apple Pencil technology so students and teachers can write and draw naturally in pixel-perfect precision without missing a single line or detail.

M325 MOUSE

A contoured, ambidextrous mouse with smooth cursor control that lets students express their knowledge with greater precision.

RUGGED COMBO 4 KEYBOARD CASES FOR IPAD®

A durable, integrated Multi-Touch™ trackpad for students to take along wherever their learning takes them. With four use-modes, Logitech Rugged Combo gives students the power to engage with content holistically and comfortably.
