Unleash the power of recorded lectures

Customized solutions to help faculty record lectures from the campus or home office

Equip faculty with studio-quality accessories to prepare course content anywhere, anytime. Whether at home or in the office, Logitech offers plug-and-play solutions that help professors' maximize time and elevate the learning experience with engaging and interactive, high-definition content.

CAMERAS

BRIO 505

With auto-framing, auto-light correction, and noise-reduction mics, this plug-and-play webcam makes high-quality recording easy. Faculty can take content creation to the next level with ShowMode that lets them tilt the camera toward their desk to show sketches, work in progress, or other objects on their desk.

MX BRIO 705

Let professors capture every detail in 4K with this AI-powered webcam. Adjustable field of view options lets them control what's shown on screen, while Show Mode makes sharing physical items easy. Dual beamforming mics enhance voice, and the Sony STARVIS powered image sensor delivers superior image quality for an immersive learning experience.

LOGITECH REACH

An adjustable content camera that lets instructors move the camera to non-digital content to express their point of view. Easy one-hand flexibility allows presenters to move vertically, horizontally, and in a full 360° degree rotation.

MICROPHONES

YETI NANO

This premium USB microphone is complete with an internal shockmount that keeps content clean and crisp. It combines powerful Blue VOICE vocal effects for professional recording and streaming.

YETI X

Yeti X is a state-of-the-art, flagship USB microphone for streaming, podcasting and YouTube productions. Yeti X features built-in studio controls, customizable LED metering, and Blue VOICE effects and samples—everything faculty need for broadcast-quality vocal sound.

HEADSETS

ZONE VIBE WIRELESS

Help faculty eliminate distractions while capturing content. With beamforming technology, a noise canceling mic, and expertly-tuned 40 mm speaker drivers, this headset helps professors get in the zone with memory foam earpads that provide hours of comfort.

ZONE WIRELESS

Allow faculty and staff to create content on the go with Zone Wireless. With active noise cancellation, Qi wireless charging, and a flip-to-mute mic, this bluetooth headset is designed to help professors concentrate and create in busy spaces.

LIGHTING

LITRA GLOW

Litra Glow brings a premium lighting experience at faculty's fingertips. Featuring Logitech's TrueSoft technology, innovative edgeless diffuser, and cinematic color accuracy, Litra Glow wraps professors in soft, flattering light to ensure they always look their best in videos.

LITRA BEAM

This desktop, LED key light with TrueSoft technology makes it easy for professors to direct light where they want it, so they achieve everything from natural, balanced lighting to bold, cinematic effects.

MICE & KEYBOARD COMBOS

WAVE KEYS MK670 COMBO

A wireless ergonomic keyboard with cushion palm rest, paired with a sculpted, silent touch mouse, gives faculty a familiar, customized experience that lets them focus on the task at hand- content creation.

MX KEYS COMBO FOR BUSINESS

The ultimate performance combo, this keyboard and mouse allow users to scroll with fine tracking and type with spherically-dished keys to help them stay in the flow.
