

Datasheet

Logitech Active USB Cable

Achieve single-cable BYOD with Logitech MeetUp 2

Logitech Active USB Cable supports DisplayPort Alt Mode, which facilitates single-cable BYOD connection from the laptop to MeetUp 2 — no need to also connect the laptop to an HDMI cable or adapter. Now employees can run video meetings in the room by simply plugging in a single cable to their laptop's USB-C port.

Supporting super fast data transfers with USB 3.1 Gen 2, this 5 meter cable is long enough to provide better flexibility in small meeting rooms.

Tech specs

USB 3.1 Gen 2
USB C to USB C
Supports DP Alt Mode
5 m (16.4 ft) length

What is in the box
